Contracted Out (Includes material and labor) \$ 625.00

Add ons:

Added 1 more banner for flag \$ 90.00

Totals:

Albers Electric LLC (Pole, Material, Labor) \$4,640.00

or

Gotitwholesale.com (Pole, Material, labor) \$2,664.80

Additional 11' Street Poles along Willow Street

No easy location – where would you put them? Street not designed for this type of lighting

Currently overhead electric on Willow – Xcel would need to come in to do this project as it would include trenching or boring electric lines and installation of poles

County Road

Big project and should be more cost effective when improvements are done to Willow Street so costs would be included in project

Expenses:

Poles with lights and banner arms

Trenching or boring

concrete base

electrical hook up

labor and installation

etc..
